

HUMAN RIGHTS ABUSES HAVE **NO PLACE** IN OUR **SEAFOOD SUPPLY CHAIN**

With the help of our NGO partner Verité, we have launched an **Action Plan** to tackle the problem of worker abuse in the Thai seafood supply chain. It will be **implemented together with our partners** and include:

Grievance mechanism
for anonymous reporting

Emergency response team

NO FORCED LABOUR
NO RECRUITMENT FEES
AND NO DEBT BONDAGE

Awareness raising campaign
on recruitment and labour standards

Training boat owners and
captains on labour practices

Traceability system
for seafood ingredients

Audits to verify working
conditions

We are also taking part in an **International Labour Organisation (ILO) Working Group**, together with the Government of Thailand, local seafood suppliers and international buyers, for **additional support and collective action**.
